

ACUTE MEDICAL TAKE COURSE

All medical emergencies over one weekend

26th/27th October 2019

www.medical.education

OVERVIEW

This is an intensive two day step-by-step course that takes you through all the major medical emergencies encountered during an acute medical take.

Lectures delivered by regional specialist consultants and A&E consultants through a novel technique for you to participate and interact with the presenter through our own propriety app on your mobile phones & tablets.

The goal of the course is to **“TEACH , DISCUSS & UNDERSTAND – NOT MEMORISE”**

There is a real emphasis on physiology of the conditions, which was then consolidated in a clinical context.

Who is it for?

- Junior Trainees
- Foundation year doctors
- CMT
- Registrars
