

**DR. AMER SALEEM**  
**Consultant Respiratory Physician**

**Personal Profile**

Dr. Amer Saleem graduated from the University of the Punjab, Lahore, Pakistan in 2002. After completing internship, he underwent structured training program in general internal medicine and then respiratory medicine (pulmonology). After completing his training and local qualifications he moved to UK for further experience. His main interests are interventional bronchoscopy, lung cancer, lung nodules, TB, sarcoidosis, pleural ultrasound and COPD.

Dr. Saleem's first appointment in NHS as respiratory consultant was at Bedford Hospital in 2014. He had honorary contract at UCLH and gained interventional bronchoscopy experience from there. He developed EBUS service at Bedford Hospital in 2018.

Dr. Saleem joined Milton Keynes University Hospital as consultant respiratory physician in 2018. In addition to departmental governance lead and an appraiser, he is an educational supervisor for University of Buckingham medical students, foundation year doctors and respiratory trainees. He is Royal College Regional Advisor for Physicians (RCPSG), and Royal College Examiner for PACES examination as well.

Dr. Amer Saleem has published various articles in the field of respiratory medicine and has also participated in research trials.
